MY WORK

Provisioning & Logistics Coordinator | Acumera, Inc.

October 2017 – Present // Austin, TX

- Working on an internal Web Application to integrate our internal customer billing with our cellular provisioned providers (AT&T, Verizon). This app will help automate our internal records and move the company away from google spreadsheets. This app utilizes HTML, CSS, JavaScript and React for the front end and MySQL, Express.js, Node.js, Web Token Authentication, and SOAP API's for the backend.
- Lead price negotiations with current and potential suppliers and manufacturers.
- Manage on-going vendor relationships.
- Keep track of quality, quantity, stock levels, delivery times, transport costs and efficiency.
- Manage the physical flow of all inventories.
- Maintain accurate records of all equipment shipped.
- Meet cost, productivity, accuracy and timeliness targets and achieve cost savings.
- Maintain metrics and analyze data to assess performance and implement processes improvements.
- Process returned customer equipment through QA & Software testing.
- Assist Software & Development in testing new software updates on equipment.
- Run equipment through software updates before deployment.

Technical Support Analyst | Charter Communications

September 2016 – September 2017 // Austin, TX

- Actively and consistently support all efforts to simplify and enhance the Enterprise client experience.
- Provided technical support to Enterprise clients on supported network technologies including Internet Access, Ethernet, Voice, Managed Services and Enterprise TV services.
- Responded to incoming customer issues that are reported via phone, in a manner which meets high quality, productivity and other performance standards.
- Documented and submit complex technical issues via the appropriate ticketing system in a clear and concise manner.
- Provided clients with timely updates on service-impacting events through resolution.
- Have an understanding and ability to provide direction/assistance with troubleshooting complex technical support incidents.

District Store Manager | Unicom Wireless LLC

August 2012 – August 2016 // West Seneca, NY

- Integrated all internal and external resources to achieve high levels of customer satisfaction and high business profitability.
- Ran and was responsible for the day-to-day operations, inventory, upcoming store events, promotions, and training.
- Able to select, develop, train, and retain diverse sales force of top talent.
- Was a driving force in coaching my teams, motivating them, helping them develop, as well as making the tough decisions when my team needed to be held accountable.
- Provided active coaching and conducted employee evaluations, development, and feedback to my sales team utilizing hard metrics derived from reports.
- Assisted on employee projects, adding value and efficiency to get priority things done for the business quickly and with quality. I built reports, ran analyses, built/presented training's, and designed workflows/processes.
